

## The Search Engine for Law Enforcement

CrimeTracer is the #1 law enforcement search engine that enables investigators to search through more than 1.3B structured and unstructured data across jurisdictions to obtain immediate tactical leads, leverage advanced link analysis to make intelligent connections, link NIBIN leads to reports, suspects, and other entities, and more.

### Advanced Search

CrimeTracer is the industry's leading search engine for law enforcement, combining the simplicity of unstructured natural language search with the power of structured field level and federated search. The result is that the information you are looking for will appear on the 1st page of results with the same ease as a Google search.

### The Power of the Network

There is plenty of law enforcement data available to agencies across the United States. With CrimeTracer, we focus on providing the right data. With the most comprehensive set of data in the industry, we offer the singular ability to access critical and meaningful information from not only your agency's IT systems, but across the city, county, state and country.

### Public Investigative Data

Our alliance with Thomson Reuters CLEAR® means officers and analysts will have not only private law enforcement agency data but critical public records data at their fingertips without having to toggle between disparate applications.

### Accelerating Investigations with Powerful Analytics

Advanced analytics and visualizations provide the ability to centralize and apply complex analytics across multiple data sets. With this information, Law Enforcement analysts and investigators glean actionable insights, in real-time, that help identify crime trends and prevent criminal activity.

### Simple and Accessible Across the Department

CrimeTracer is accessible from any centrally managed device and across all compliant networks. A seamless integration with your existing infrastructure puts the power directly into the hands of all law enforcement professionals, including patrol, investigators, analysts and command staff.
